

Adobe ID Badge Field Template

You may use the pre-made Adobe form fields in this template by copying them into your ID Badge PDF file.

Instructions:

1. Open this ID Badge Field Template and your ID Badge PDF in Adobe Acrobat Pro DC.
2. For both the template and the ID badge:
 - a) Click on **More Tools**  on the bottom right side.
 - b) In the Forms & Signatures section, click **Prepare Form**.
3. Click on the different fields in this template, copy them (**Ctrl+C**), and paste them (**Ctrl+V**) into your ID badge PDF file.
4. In your ID badge, right-click your pasted fields and click **All Properties** to edit each field.
5. Upload your ID badge in **System Management > ID Badges > Custom PDF template**. Page 1 is the front of the badge and page 2 (optional) is the back.

Pre-made Adobe Form Fields

ID Badge Information	Adobe Field Name	Adobe Field (for Copying and Pasting)
First Name User's first name in their user profile	FirstName	FirstName
Last Name User's last name in their user profile	LastName	LastName
Full Name User's first and last name together	FullName	FullName
Profile Photo User's profile photo. Leave this field out to make badges without a photo	ProfileImage	
Portal Name Name of the portal the user belongs to	PortalName	PortalName
User's Employer (Company) User's company they work for shown in their profile	EmployerName	EmployerName

ID Badge Information	Adobe Field Name	Adobe Field (for Copying and Pasting)
ID Badge QR Code Unique QR code assigned to the user (scanning it shows the user's training records and, if turned on, their completed folder documents and forms)	QRCode	

* Driver's licence numbers are left blank when driver's licence security is turned on for your portal.

Notes:

- Field names are case-sensitive. Any other field name is left blank.
- Use text fields for text and image fields for pictures. Pictures scale to fit the field box and keep their proportions.
- Your PDF page size is the badge size. Keep the file under 5 MB and without a password.
- Need a starting point? Download the **sample template** next to the upload area. It has every field already placed.
